SPECIAL VOLUME

TIME LIMITS ON TECTONIC EVENTS AND CRUSTAL EVOLUTION USING GEOCHRONOLOGY: SOME AUSTRALIAN EXAMPLES

Edited by

W.J. COLLINS

The University of Newcastle, Department of Geology, University Drive, Callaghan, Newcastle, NSW 2308, Australia

and

R.D. SHAW

Australian Geological Survey Organization, Minerals and Land Use Program, Anzac Park East Building, GPO Box 378, Canberra, ACT 2601, Australia

CONTENTS

Preface 1

An assessment, based on U–Pb zircon data, of Rb–Sr dating in the Arunta Inlier, central Australia
L.P. Black and R.D. Shaw 3

SHRIMP U–Pb zircon geochronology of granites in the Arunta Inlier, central Australia: implications for Proterozoic crustal evolution
J. Zhao and V.C. Bennett 17

U–Pb zircon dating of tectonomagmatic events in the northern Arunta Inlier, central Australia
D.N. Young, C.M. Fanning, R.D. Shaw, C.J. Edgoose, D.H. Blake, R.W. Page and A. Camacho 45

SHRIMP ionprobe dating of short-lived Proterozoic tectonic cycles in the northern Arunta Inlier, central Australia
W.J. Collins and I.S. Williams 69

The age of the Ormiston Pound Granite: implications for Mesoproterozoic evolution of the Arunta Inlier, central Australia
W.J. Collins, I.S. Williams, S.E. Shaw and N.A. McLaughlin 91

Time constraints on the evolution of the Tennant Creek Block, northern Australia
D.M. Compston 107

Relationships between magmatism, metamorphism and deformation in the western Mount Isa Inlier, Australia
K.A. Connors and R.W. Page 131

Some isotopic constraints on the evolution of the granulite and upper amphibolite facies terranes in the eastern Musgrave Block, central Australia
A. Camacho and C.M. Fanning 155

Metamorphic events in the eastern Arunta Inlier, Part 1. Metamorphic petrology
J. Arnold, M. Sandiford and S. Wetherley 183

Metamorphic events in the eastern Arunta Inlier, Part 2. Nd–Sr–Ar isotopic constraints
J. Foden, J. Mawby, S. Kelley, S. Turner and D. Bruce 207

Paleozoic deformation and isotopic disturbance in the southeastern Arunta Block, central Australia
W.J. Dunlap and C. Teyssier 229

Tectonic implications of Rb–Sr biotite ages for the Hillgrove Plutonic Suite, New England Fold Belt, N.S.W., Australia
B. Landenberger, T.R. Farrell, R. Offler, W.J. Collins and D.J. Whitford 251

Geochemical and Nd isotopic systematics of granites from the Arunta Inlier, central Australia: implications for Proterozoic crustal evolution
J. Zhao and M.T. McCulloch 265

Nd isotope study of granites from the Arunta Inlier, central Australia: constraints on geological models and limitation of the method
S. Sun, R.G. Warren and R.D. Shaw 301

Geochronological constraints on orogenic events in the Arunta Inlier: a review
W.J. Collins and R.D. Shaw 315
